

CUSTOMER RESPONSIBILITIES

Give your health provider (fitter) correct and complete information about your surgery site (chest wall) so your fitter can help you choose the most appropriate product for you. Check with your doctor; if there have been any changes in your surgery site (chest wall).

Tell your fitter you understand your fitting needs as presented to you and ask questions if you do not understand.

Accept responsibility for your actions and decisions if you choose not to follow recommendations from your fitter.

Call us for directions on how to exchange or return a product. Call us to report any defective item. Thank you!

The reason for wearing breast forms with surgical bras is a health issue – to restore balance to the body

Wearing a breast form that is too heavy or too light may cause discomfort, call us for help.
